Utilizing Your Kenmore 665 Dishwasher: A Step-by-Step Guide

Proper usage of your Sears Kenmore dishwasher model 665 is vital for achieving clean dishes and extending the appliance's lifespan. Here’s a step-by-step guide:

1. **Pre-Washing:** Scrape off excess food from dishes. While the dishwasher is designed to handle some food particles, excessive food residue can clog the filter and affect cleaning

performance.

2. **Loading:** Load the dishwasher efficiently, ensuring items aren't blocking the spray arms. Larger items should go on the bottom rack, while smaller, delicate items belong on the top. Proper loading maximizes cleaning effectiveness.

3. **Selecting the Wash Cycle:** Your Kenmore 665 offers various wash cycles, such as Normal, Heavy, and Rinse Only. Choose the cycle appropriate for the level of soil on your dishes. Consult your Sears Kenmore dishwasher model 665 manual for detailed descriptions of each cycle.

4. **Adding Detergent:** Use the recommended amount of dishwasher detergent, ensuring it's placed correctly in the designated dispenser. Overusing detergent can leave residue on your dishes.

5. **Starting the Cycle:** Once you've loaded the dishwasher, selected the wash cycle, and added detergent, simply press the start button.

6. **Unloading:** Allow the dishwasher to cool slightly before unloading to prevent burns. Always unload from the bottom rack upwards.
